

"Machine for the manufacture of lipsticks or similar "

\* \* \* \* \*

ABSTRACT

5 Machine for the manufacture of lipsticks or similar, comprising a mobile  
support (1) for a plurality of housings (8) for flexible moulds (14) that are  
fillable with cosmetic product, said mobile support (1) being movable through a  
plurality of working positions comprising a position (17) for heating the flexible  
moulds, a position (18) for filling the flexible moulds with poured cosmetic  
product and a position (19) for cooling said poured cosmetic product. Said  
10 heating position (17) comprises means for the introduction of warm heating air  
into said moulds and said cooling position (19) comprises mould cooling means  
that operate by convection of cold air. (Figure 1).
